EDUCATION

University of Maryland Global
Campus

2025 - Present

Computer Science

WSU Tech

2019 - 2021

Associates of Applies Science
Aviation maintenance

PROFILE

Computer science student looking to break into the world of web development. While pursuing my computer science degree I have taken on the initiative to pursue web development further through online bootcamps and training services. I have complete entry courses on www.codecademy.com. The course I have completed are: Django, flask, sql, html / css, javascript, machine learning and AI. I have the willingness and drive to learn more. Coding and web development are my passion. I am hard working and highly motivated while maintaining on-time delivery.

EXPERIENCE

Assembly mechanic lead

2018 – Present

Aero-Tech Engineering. Oversee the weekend assembly crew at an aviation shop that builds aircraft components for a variety of customers. Complete first part reviews and produce first articles to the inspection team for review. Follow in-depth blueprints and engineering documentation along with customer specifications. Maintain on-time delivery to customers.

General Labor

2018 - 2018

Wichita Truck and Tank Wash. Oversee and supervise the cleaning of semi tank trailers to ensure no cross contamination. Trailers were cleaned using a variety of chemicals. Ensuring safe storage and use practices were implemented in accordance to material safety data sheet.

Archery Technician

2017 - 2018

Sutherland's Outdoors. Provide customer service to customers shopping in the outdoors department. Build, maintain and repair archery equipment brought in by customers. Print and label products with SKU's. Order and restock inventory when supplies where low.
